ProdiKA

Prospective digital
work design

ProdiKA...

enables companies and
employees to foresightful action.

Duration ProdiKA:
2018-09-01 – 2021-08-31

Prospective digital work design ...

... enables companies and employees to foresightful action

... facilitates future-oriented, innovative, adaptive and sustainable work.

... designs digital technologies according to the specific needs and processes of concrete work.

ProdiKA...

makes work resilient and tailorable in case of unpredictable changes.

Duration ProdiKA:
2018-09-01 – 2021-08-31

... ProdiKA

... enables companies and employees to foresightful action

... facilitates future-oriented, innovative, adaptive and sustainable work.

... designs digital technologies according to the specific needs and processes of concrete work.

... makes work resilient and tailorable in case of unpredictable changes.

ProdiKA...

**develops technological solutions to use digitization as support and tool for employees.**

200m

Duration ProdiKA:
2018-09-01 – 2021-08-31

Prospective digital work design ...

... enables companies and employees to foresightful action

... facilitates future-oriented, innovative, adaptive and sustainable work.

... designs digital technologies according to the specific needs and processes of concrete work.

... makes work resilient and tailorable in case of unpredictable changes.

... develops technological solutions to use digitization as support and tool for employees.

ProdiKA ...

develops solutions for work organization in order to enhance employees' scope of action, cooperation and decision.

ISFMÜNCHEN

... ranks among the leading research institutions
on issues of work and industrial sociology in Germany

... has a core focus: work, since all actors in societies need
knowledge about work and concepts for the development
of work: individuals, enterprises, organizations, and
institutions

... conducts empirical social research in a comprehensive
sense: empirical analysis of work in enterprises, interviews
with employees and experts, but also theoretical reflection,
development of strategies and practical steps, consulting,
knowledge transfer and public relations

... exemplifies the principles of self-organization, autonomy,
and networking in its own organizational model
